Walter Johnson King of All Pitchers

(By Hickey.) If he wasn't a nice fellow we would never have heard him say a word, but much obliged he is, as he talked—talking for the simple reason that he knows about all things and he knows the way that he can best of it by speaking at once as possible—three or four words a day in his usual manner.

But the king of pitchers talked long enough to try to explain his speed in answer to our query, for his speed, you know, is the secret of his success.

"Why, I really don't know how I throw so fast. I just do it; that's all I know. Maybe it is because I'm so big and then again maybe it isn't. I have known very small people that pitched tremendous fast. Why, the little girl that holds the ladies' record for long distance throwing is a mere slip of a girl."

"No, I never trained for speed," said Walter again. "I always could throw hard, even as a boy. It's the way I throw I guess. Anyway, I am sure I can't do it due to strength of arm. For I have never undergone any course of development to produce it." And the big blond twirler lapsed into silence.

"Pitching is very simple," he replied to our prodding question. "There is nothing to it. That is, I am never worried about it. Of course, every pitcher gets his bumpings once in a while. It's the luck of the game, I guess. A fellow will work just as hard and have as much on the line as two different days, yet one of the days he may score a smut and the next day receive the bumping of his career. I just work hard all the time and do my best whether I am behind or ahead. It is all in a day's work."

And again Johnson grew silent—very silent this time, as he had undergone some great effort in speaking so much consecutive language.

"But about your winning streak; does not that make you a little nervous?" we asked.

"No, I never think of it. I pitch the same as I always do—the best I can. I have no desire to hold the record—well, I mean that I am not pitching with the record in view. Of course, I wouldn't mind the honor, either."

Walter seemed to be suffering so much pain as a result of making conversation that we grew merciful and folding our paper and pencil, like the Arabs we silently stole away.

We like you, Walter Johnson! We like you—your work!

SANTA FE ELKS ON TRAIL OF LOCAL ELKS' LODGE

Ed Safford Says Antlered Ones in Ancient City Defy Albuquerque B. P. O. E. to Meet Them on Baseball Diamond.

A baseball game between Santa Fe and Albuquerque, to be played either in Albuquerque or Santa Fe, or perhaps Los Lunas, is the prospect for local baseball bugs. Ed Safford, of the Santa Fe Elks is in today today and said that the Santa Fe lodge has a baseball club that can put all kinds of crimp into the Albuquerque Elks on the diamond.

"We are willing to play either here or in Santa Fe and under almost any conditions," said Safford. "All we want is to get the 441 bunch into a game."

Baseball Decisions. Auburn, N. Y., Sept. 6.—The following decisions were handed down today by Chairman John H. Barrett, of the National board of baseball arbitration:

Claims allowed: Port Worth against Kansas City on Player Carr; Waco against Louisville on Helm.

In the matter of Texas-Oklahoma league against Dallas, Texas, in regard to Players Brady, Scroggins and Nicholson, title to the players is awarded to the Texas-Oklahoma league.

No Wind for Sander Boats. Marblehead, Mass., Sept. 6.—Another effort was made today to hold the fourth international under yacht race although the weather conditions of the early morning were no more promising as to wind than when yesterday's contest was called off because of a flat calm.

Houston, Tex.—The 1913 pennant race of the Texas league was settled yesterday afternoon when Houston, defeating Galveston 2 to 1, took the game necessary to put them beyond the possibility of losing first place. Dallas won second place, with Waco, San Antonio, Austin, Fort Worth, Galveston and Beaumont in order.

Crystal Theater opens tomorrow with a Great feature picture.

LIVE STATE NEWS

Train Kills Horses and Demolishes Vehicle; Two Occupants Are Unhurt

Terribly Narrow Escape Near Santa Rita; Hondale Farmer May Die from Gasoline Burns; Motorist Sustains Fractured Skull on Scenic Highway; Taos County Man Found Dead in Wagon; Convict Escapes at San Marcial.

(Special Correspondence to the Herald.) Santa Fe, N. M., Sept. 6.—A fast moving train on the Santa Rita branch of the Santa Fe, both horses killed and themselves thrown many feet by the smashup, of J. A. Moore and M. McDermott, two employees of the Santa Fe Copper company at Santa Rita, had a miraculous escape from death.

The men were driving across the tracks at San Jose, where the winding road crosses the track half a dozen times in half a mile, making it exceedingly dangerous for vehicles. The men were practically unhurt.

FARMER NEAR HONDALE MAY BE FATALITY BURNED. Doming, N. M., Sept. 6.—Tuesday morning Frank Cox, a well known farmer living near Hondale, was seriously injured by a gasoline explosion which occurred while he was starting his large irrigation engine. Both arms were severely burned as was also his back and right side. He has been well since the accident and it is thought that he has not taken flames into his lungs he will recover.

Fought Through Flames. At the time the accident happened, Mr. Cox was trying to bend a pipe which carries the gasoline to a torch, which heats a ball to a high temperature and vaporizes the crude oil fuel. The pipe had been incinerated by previous application of heat and broke off throwing gasoline under pressure over Mr. Cox's body and over the interior of the engine house. Half conscious the injured man fought his way through the flames to the closed door, and barely escaped when a second explosion occurred.

The engine house was entirely destroyed, also air tanks, gasoline tank, wagon, and barrels of crude oil on the wagon, and the big engine greatly damaged.

AMONG THE FARMERS

Fort Sumner Has Finest Holstein Friesian Dairy Herd in New Mexico

Indian Point Ranch Will Have Notable Livestock Exhibit at State Fair; Deep Well Project Resurrected in Estancia Valley; Crop Conditions Good on Mesas Near Raton; High Grade Milk Cows for Springer District.

(Special Correspondence to the Herald.) Fort Sumner, Colo., Sept. 6.—What is beyond a doubt the finest herd of pure bred Holstein Friesian dairy cows in New Mexico, or for that matter west of the Mississippi, is owned by George E. Mann, proprietor of the Indian Point ranch, situated about three miles south of Fort Sumner, on the banks of the Pecos river. Mr. Mann's ranch occupies over two hundred acres of land under the John S. Taylor irrigation project on the west side of the Pecos river, and is all in a high state of cultivation.

The bull "Count Hengerveld De Kol Beets," owned by Mr. Mann, is considered by some of the best breeders in the United States to be one of the finest show bulls for his age (2½ years) in the world. He won the first prize as a yearling and the following year won the junior championship at the Illinois State fair, held at Springfield, Ill. He now weighs 1800 pounds. Among Mr. Mann's herd of cows is Reka Butter Beets, one of the best show heifers in the country. This cow combines in the closest possible degree the blood of such well known stock as Oakland Paul Beets Burke, The King of Butter Kings and Duchess Grassy Piebe Burke, her mother being Reka Ormsby Butter Queen, the granddaughter of the \$5,000 cow, Pontiac Ring Apple.

Another of Mr. Mann's cows is Reka Frontier Queen, a granddaughter of the world's greatest bull, King of the Pontiacs, the father of the world's record cow, King Pontiac Lass, who gave 44.15 pounds of butter in seven days, establishing a record which has never been duplicated. This cow is also a three-fourths sister to the only bull calf that ever sold at public auction for \$10,000.

Mr. Mann's entire herd will be on exhibition at the Albuquerque State fair in October, and will also be shown at the Melon day celebration to be held in Fort Sumner on the 10th of September.

DEEP WELL PROJECT FOR ESTANCIA VALLEY AGAIN

Estancia, N. M., Sept. 5.—The project of sinking a deep well in the Estancia valley, for the purpose of making a positive demonstration of the water supply has been brought up again and the Oklahoma men behind the enterprise have sent contracts to be signed up by the local committee. They propose if the conditions are complied with to put up a \$5,000 bond for the fulfillment of their end of the contract. But the people here fear that they cannot do all that is asked, and a new contract in the nature of a counter proposition has been drawn up, signed and sent to the Oklahoma parties, with a letter setting forth the concessions asked and the reasons therefor. It is hoped that they will be willing to yield and accept the contract offered.

CHOP CONDITIONS FINE ON MESAS IN COLFAX

Raton, N. M., Sept. 6.—Splendid reports have been received from Johnson mesa during the past week, indicating a larger yield in field crops than was anticipated by the mesa folks. The showers of the past month have performed wonders in reviving vegetation and allowing crops to mature. The first report on threshed grain comes from the place of the

TAOS COUNTY MAN IS FOUND DEAD IN WAGON

Taos, N. M., Sept. 4.—Saturday night Manuel and Pablo Griego of Dixon, N. M., accompanied by Apolito Valdez, were returning from a fruit selling trip through Colfax county and made camp at Ranchito. On Saturday evening Valdez was found dead in his wagon, having died during the evening.

A coroner's jury was summoned and rendered a verdict that death came from natural causes.

CONVICT ESCAPES FROM CAMP NEAR SAN MARCIAL

Santa Fe, N. M., Sept. 4.—Notice has been received here of the escape of Pedro Barcia from the convict road camp at Mulligan Gulch, near San Marcial, Tuesday. Barcia, who is 22 years old, was sentenced from Lincoln county, May 10, 1912, to serve a term of three years for burglary. He has black hair, brown eyes, weighs 132 pounds and is 5 feet, 10 inches tall. A reward of \$50 is offered by the state penitentiary authorities for the wagon, and the big engine greatly damaged.

HONEYFIELD BOYS, WHOSE WHEAT RETURNED 16 BUSHELS TO THE ACRE WHEN THRESHED LAST FRIDAY. THEIR RYE RETURNED 28 BUSHELS PER ACRE, AND PROSPECTS ARE FINE FOR AN EXCELLENT CROP OF OATS. SIMILAR GRATIFYING REPORTS ARE COMING IN FROM ALL THE MESA DISTRICTS CONTIGUOUS TO RATON.

HIGH GRADE DAIRY STOCK COMING TO SPRINGER

Springer, N. M., Sept. 6.—A movement is on foot to bring some high grade dairy stock into this country. This movement has its origin in the fact that the dairy farmers of Kansas are compelled to sell, or at least to reduce the number of their herds by reason of the drought which prevailed in that state this year.

FINE PEACHES RAISED IN HONOLULU DISTRICT

The Honolulu district says: Frank Cline brought in a sample of his peach crop raised on his Gold Hill ranch, for the attention of the Honolulu district. The peaches are certainly fine, as edible as any the Liberal ever ate, and he thinks he knows something about peaches. For he spent many years in the peach belt of west Michigan, which raised the finest peaches in the world, but none superior to the peaches Mr. Cline raises on his Gold Hill ranch.

TO ADMIT MEXICAN COTTON SEED ONLY FOR OIL MAKING

Washington, D. C., Sept. 4.—The acting secretary of agriculture has issued an amendment to the notice of quarantine against the importation of cotton seed on account of the pink boll worm, under which cotton seed (including seed cotton) and cotton seed hulls from the states of Mexico, excepting only the Imperial valley in the state of Lower California, that such cotton seed (including seed cotton) and cotton seed hulls will be used for manufacturing purposes only, and that they were produced in the states where mentioned. The federal horticultural board will exercise the right of inspecting of these importations and their use on the premises of the mill as often as it may deem necessary to assure itself that the conditions imposed are being fulfilled.

Except under these conditions, no cotton seed (including seed cotton) or cotton seed hulls may be brought to the United States from any part of Mexico, excepting only the Imperial valley in the state of Lower California.

SERVICE AND SOLIDITY

The Banking Requisites

The satisfactory bank—the only bank which can be of real benefit to the business public—is that which, while assuring absolute security, is prepared to give expert and courteous service not only to depositors but to the public generally.

The success of the STATE NATIONAL BANK has been built upon this winning combination of Service and Solidity. Your account is solicited.

State National Bank OF ALBUQUERQUE, N. M.

GOOD telephone service depends largely upon mutual courtesy. The telephone is more useful to those who talk as if face to face, for civility removes difficulties and facilitates the promptest possible connections.

As in other intercourse, it often happens that two or more people wish to talk with the same person at the same time. Without courtesy confusion is inevitable, and the confusion is greater when the people cannot see each other.

The operators must be patient and polite under all circumstances, but they will do better work if they meet patience and politeness on the part of telephone users.

The Bell Telephone Service enters intimately into the social and business life of each individual. The best results come through the practice of mutual courtesy.

The Mountain States Telephone and Telegraph Company
